Table specifications

SALES / FIELD GUIDE 04

Can this table fit through a 32-inch opening?

SOURCE PASSAGE

Round dining table. Top diameter 36 inches. Assembled height 30 inches.

01 Identify the item

Use this entry for the sample round dining table. The diameter describes the widest point across its circular top.

02 Compare the measurements

A 36-inch top is wider than a 32-inch opening when held flat. The assembled dimensions alone do not confirm clearance during delivery.

03 Confirm delivery clearance

Packed size, disassembled dimensions and the delivery path are unspecified. Ask the product team before promising that the table will fit.
